INDEX TO VOLUME XLVIII, 1936

PAGE

Alloy, Nickel-Copper (70-30), by Mason S. Noyes 1
American Sea Power and World Events (Note) 273
America's Weakness Upon the Seas (Note) 271
Analysis, Dimensional, of Model Propeller Tests, by Edgar Buckingham 147
Apology by the Editor (Note) 412
Arc Welding, Electric, of Brass and Bronze (Note) 585
Arc Welding With Domestic Electrodes, Properties of Metals Deposited in (Note) 581
Association Notes 145, 304, 454, 588
Balancing of Ship Propellers, Dynamic, by Philip Mallozzi 327
Barrow, W. P., and K. D. Williams, Cadmium Plating 59
Battle Cruisers, German (Note) 439
Bethon, Henry Edwin, Marine Refrigeration 199
Boiler Installation on the *Queen Mary* (Note) 450
Boiler Feed Systems, A Comparison of Open and Closed, in Marine Installations, by J. M. Labberton 382
Bow Characteristics for Ice Breaking, by D. R. Simonson 249
Bowen, H. G., Steam in Relation to Marine Engineering 49
Brass and Bronze, Electric Arc Welding of (Note) 585
Buckingham, Edgar, Dimensional Analysis of Model Propeller Tests 147
Cadmium Plating, by W. P. Barrow and K. D. Williams 59
Case for the Modern Steam Installation (Note) 119
Cause and Correction of Gear Noise (Note) 429
Chapman, Everett, Welded Structures 476
Closed and Open Boiler Feed Systems in Marine Installations, A Comparison of, by J. M. Labberton 382
Closed Feed System of the Cunard White Star Liner *Queen Mary* (Note) 435
Coloring of Steel (Note) 448
Combustion Development Technique, Observations on (Note) 412
Comparison of Open and Closed Boiler Feed Systems in Marine Installations, by J. M. Labberton 382
Condenser Tubes, Copper-Nickel (70-30), Some Metallurgical Properties of, by Joseph A. Duma 397
Control of Superheat (Note) 125
Copper-Nickel (70-30) Alloy, by Mason S. Noyes 1
Copper-Nickel (70-30) Condenser Tubes, Some Metallurgical Properties of, by Joseph A. Duma 397

PAGE

"Corrosion Resistance of Metals and Alloys," by Robert J. McKay and Robert Worthington, Book Review ... 453
Couplings, Hydraulic, Recent Developments in (Note) ... 292
Crew, William H., The Frontier of Modern Physics ... 313
Cunard White Star Liner *Majestic* (Note) ... 449
Dampman, Paul E., Captain, U. S. N., Obituary (Note) ... 588
Diesel Engines for Power Boats of U. S. Navy, by E. C. Magdeburger 68
Diesel Engine, Marine, Progress in Washington (Note) ... 116
Dimensional Analysis of Model Propeller Tests, by Edgar Buckingham 147
Discussion of Automatic and Manual Electric Arc Welding, by A. J. Moses ... 523
Discussion of Noise Measurement (Note) ... 423
Dry Pipe Explodes Inside Steam Drum (Note) ... 448
Duma, Joseph A., Some Metallurgical Properties of Copper-Nickel (70-30) Condenser Tubes ... 397
Dynamic Balancing of Ship Propellers, by Philip Mallozzi ... 327
Electric Arc Welding, Discussion of Automatic and Manual, by A. J. Moses ... 523
Electric Arc Welding of Brass and Bronze (Note) ... 585
Electromagnetic Properties of the Metal Deposited in Welding (Note) 581
"Elements of Diesel Engineering," by Orville Adams, Book Review ... 303
Engines, Diesel, for Power Boats of U. S. Navy, by E. C. Magdeburger 68
Evaporators, Welded (Note) ... 586
Foreign Navy Notes (Note) ... 289
Frontier of Modern Physics, by William H. Crew ... 313
Fuel Oils, A Method for Determining the Correct Burning Temperature for, by Albert C. Murdaugh ... 377
Fusion Welding, by Bela Ronay ... 532
Future of Steam Propulsion (Note) ... 267
Future of Warship Construction (Note) ... 114
Gear Noise—Cause and Correction (Note) ... 429
Geared Propulsion Universal in Germany (Note) ... 449
German Battle Cruisers (Note) ... 439
German Submarine Designs, New (Note) ... 112
Germany, Geared Propulsion Universal in (Note) ... 449
Hiemke, Hugo W., The Repair of Steel Castings by Welding ... 484
High Speed, Naval Interest in (Note) ... 104
Hindenburg, Zeppelin L. Z. 129 (Note) ... 445
Hodge, James Campbell, The Welding of Pressure Vessels ... 498
How to Succeed (Note) ... 419
Huey, C., Testing of Telephones for Naval Service ... 255
Hull Welding, Practical Aspects of (Note) ... 579
Hydraulic Couplings, Recent Developments in (Note) ... 292
Ice Breaking, Bow Characteristics for, by D. R. Simonson ... 249
